

To our valuable community business partner,

Northwest Crossing Association represents almost 4,000 homes and over 14,000 residents in northwest San Antonio. The Association endeavors to give residents opportunities to be a meaningful part of their community. To help accomplish this goal, the Association, its staff, and volunteers provide fun and purposeful activities. This is why NWC has one of the longest running youth swim teams in the city, established in 1985.

With such a large and diverse community and so many programs to support, NWC is continually seeking new and better ways to serve our neighborhood and to involve the business community of the San Antonio area. We invite your business, located in close proximity to our neighborhood, to join our efforts and sponsor our NWC youth swim team, the NWC Dolphins.

Partnering with our community would be a win-win! In return for a \$200 sponsorship, we can offer your business valuable marketing opportunities and a FREE registration for one of our young swimmers.

Here are some of the great ways we can help you make your business a household name in the community:

- **Your business name on our 2021 team t-shirts** - every team member receives one and many supporting family members purchase their own
- **Your business name/logo on www.nwcrdolphins.com, www.nwchoa.org, and in the NWC Association e-newsletter** - the newsletter is directly distributed to all 4,000 homeowners via email and available to the general public on the Association website
- **A Dolphins Thank You letter to display at your place of business** - we want all your customers to know what you are doing to support our youth and help make San Antonio a great place to live

Thank you for considering this opportunity to support our youth and community. We hope you will feel as we do, that your contribution is vital and needed especially as we continue to rise above the pandemic and promote the health and wellbeing of our youth. Please let us know if you have any questions regarding our request.

Sincerely,

Deb Roberts

NWC Dolphins Program Director
